STYLISH & UNIQUE

When our design team looked at developing a new suction cleaner they turned to the ocean and adopted many of the principals of movement and buoyancy found in nature. What developed from those initial concepts is an International Design Award winning product. The Zodiac G4 ensures a sleek natural look for your pool whilst at the same time offering the best in balance, stability and cleaning performance.

OUTSTANDING CONSTRUCTION

The Zodiac G4 is built to the highest standard right down to the quality and durability of materials. The discs structure has been designed to maximise the cleaning action and provide optimal adhesion, whilst its pliable inserts scrub your entire pool surface. The buoy and keel provide outstanding stability and floatation for maximum movement. The sail is made from the highly durable resin Xylex ensuring your Zodiac G4 lasts longer and performs with greater efficiency.

DIAPHRAGM TECHNOLOGY

The Zodiac G4 has only one operational moving part - the diaphragm. No gears, wheels or flappers mean simple operation that ensures peak performance, maximum power and low cost maintenance. The AD flow valve allows for precise water flow even with lower horsepower pumps. The Zodiac G4 is backed by a hassle free 2 year warranty.
