Stellar pool cleaning technology

Zodiac, Australia's leading pool technology and equipment supplier is proud to announce the launch of the new Polaris 3900 Sport, the most technologically advanced pressure pool cleaner on the market.

The new generation of pool cleaner, with its sleek sporty body and range of high performance features, the new Polaris 3900 Sport is redefining pool cleaning performance to a new level.

Operating with a booster pump and a three jet Venturi system, the Polaris 3900s delivers unrivalled cleaning performance. Circulating an additional 150 litres of water per minute, the Polaris 3900 Sport works exceptionally well in leafy and debris ridden pools, distributing clean filtered water as it cleans the pool

For improved cleaning performance, the Polaris 3900 Sport now comes with a larger five litre capacity filter bag. Double sleeved and 40 percent larger than the average filter bag, this supreme pressure cleaner can capture even the smallest particles of dirt such as sand and grit. And because it has an easy twist-release connector and full zipper access, it is a snap to clean!

Designed for use in all in-ground pools with a dedicated pressure line, the Polaris 3900 Sport will sweep, scrub and vacuum your pool flawlessly using a powerful suction for wide-path cleaning, while the Sweep Hose will clean all those hard to reach places.

The Polaris 3900 Sport is designed from resilient plastic and stainless-steel hardware for unbeatable endurance. It has fewer movable parts requiring less maintenance, making it the cost effective and durable alternative to traditional pool suction cleaners.

Priced at RRP \$1375, the Polaris 3900 Sport is the smart investment for your pool all year long.

Enjoy the benefits of the most technologically advanced pool cleaner with the new Polaris 3900 Sport
